

ClickSafe® 2.0 Keyed Laptop Lock for Dell devices

The strongest security for Dell laptops and tablets

K66638EU

Product Description

From the industry leader in physical device security for 25 years, Kensington's ClickSafe® 2.0 Keyed Laptop Lock offers all the strength and one-click convenience and keyless engagement of the original, just in a smaller, compact design. The ClickSafe® 2.0 lock head snaps onto either of the ClickSafe Security Anchors after it has been installed into the Dell wedge lock slot or Kensington Security Slot. A carbon steel cable deters cutting attempts and the pivot and rotate hinge prevents awkward angles when inserting the key.

Features

- Tough lock head that fits seamlessly into the latest Dell laptops and tablets with a wedge lock slot
- ClickSafe® locking technology provides one-step security after Security Anchor has been installed into Dell wedge lock slot found on most Dell laptops, increasing employee compliance (industry standard Kensington Security Slot anchor also included for your convenience)
- Hidden Pin™ technology is compatible across all of Kensington's latest locks and includes patented anti-pick technology, all part of our robust 5mm custom key management solutions that include Master Keyed (K66639M), Supervisor Keyed (K66639S) and Like Keyed (K66639L) options
- Carbon steel cable is cut-resistant and anchors to desk, table or any fixed structure
- Pivot and rotate cable provides superior laptop engagement
- Verified and tested for industry-leading standards in torque/pull, foreign implements, lock life cycle, corrosion, key strength and other environmental conditions
- Register & Retrieve™ program offers free and secure cloud-based key replacement
